

PUNTA GORDA AND CHARLOTTE COUNTY

Punta Gorda is the only incorporated city in Charlotte County with its own city government, fire, and police departments. Both the city and county operate extensive park systems. All schools in the city and county are operated by an independent school board and are among the highest ranked in the state. There are several elementary schools, a middle school, and a high school within the Punta Gorda city limits.

This is a waterfront community with easy boating access to Charlotte Harbor, the Peace and Myakka rivers, and the Gulf of Mexico. A two mile long harbor walk is under construction while a linear park through the city, several biking and walking trails, and a boat mooring field are being initiated. All of these projects have had input from TEAM Punta Gorda as we continue to fill in the 2005 Citizens' Master Plan to make Punta Gorda even more attractive and livable while retaining its unique small town character.
